

ADNAN ALKRDE

Front-End Developer

Damascus, Syria | +963 951 482 151 | adnanalkrde2006@gmail.com | linkedin.com/in/adnanalkrde | github.com/AdnanAlkrde

PROFILE

Front-End Developer and Information Engineering student with a track record of shipping production-ready web platforms, including a national data-collection system currently used by a government ministry. Skilled in building responsive, accessible interfaces with HTML, CSS, and JavaScript, with particular strength in Arabic RTL development and clean, user-focused UI/UX. Comfortable owning a project end-to-end, from design through deployment, using Git and GitHub for version control.

PROJECTS

National Survey Platform — Front-End Developer

Volunteer Project — Ministry of Social Affairs and Labor | July 2026

Live Demo: adnanalkrde.github.io/National-Survey-Platform/

- Built a production-ready, Arabic RTL data-collection platform for the Ministry, currently in use and reporting 12,500+ submitted surveys across 14 governorates and 5,000+ households.
- Architected a structured multi-step form spanning personal, family, housing, health, and economic data, with client-side validation and Local Storage to prevent data loss between steps.
- Delivered a fully responsive, accessible RTL interface with consistent UI/UX, managed through Git and GitHub for version control.

Tamkeen ERP System — Front-End Developer

Volunteer Project | July 2026

Live Demo: adnanalkrde.github.io/Tamkeen-Frontend/

- Built the front-end for an integrated ERP system consolidating HR, finance, and operations into a single dashboard.
- Designed and implemented 8+ functional modules, including employee management, leave requests, payment and transfer orders, cheques, budgets, and financial reporting.
- Engineered interactive, high-usability data tables with search, filtering, and pagination to streamline daily operational workflows.

Personal Portfolio Website — Front-End Developer

Personal Project | August 2026

Live Demo: adnanalkrde.github.io/My-Portfolio/

- Designed and built a fully responsive portfolio from scratch, showcasing a dark-themed UI, custom AK branding, and smooth animations across Hero, About, Skills, Projects, and Contact sections.
- Independently owned the full workflow from design to deployment, publishing the live site via GitHub Pages with clean, maintainable code.
